

Ground Zero [Lyrics]

[Honest Conversations: Part One]

Can we start over
Will I hear your voice if I cut out the noise
Let's get deeper
I miss our long conversations

Can we get closer
Let's go back to the part where you opened my heart and made me cleaner
I love how simple it was

If I'll just be still and know your goodness never ends
I'll fall in love with you again

It's me and you
When it's so complicated
When it doesn't make sense
Just me and you
Take me back to the basics
Build me up from ground zero

Can we start over
You'd think I'd know it by now
Have it all figured out
Can you speak louder
It's hard to hear your voice over all of the noise

If I'll just be still and know your goodness never ends
I'll fall in love with you again
If I'll just let go
If I get out of my own head
I'll see the truth in what you said

It's me and you
When it's so complicated
When it doesn't make sense
Just me and you
Take me back to the basics
Build me up from ground zero

Up and down
I don't wanna be up and down
I don't wanna be up and down
Up and down with you
Inside out
Laying everything on the ground
'Cause I don't wanna be up and down
Up and down with you
So I'll just be still

It's me and you
When it's so complicated
When it doesn't make sense
Just me and you

Ground Zero -

Take me back to the basics
Build me up from ground zero

You
You
