

# True Love [Lyrics]

[Honest Conversations: Part One] by Destiny Barber, Micah Nichols, Brandon Lake

I found true love  
I found, I found  
I found true love  
I found, I found

I don't wanna live my life  
Walking on a line that's always changing  
I'm tired of this lonely life  
Drowned in a lie it's got me thinking

I'm not broken  
I'm not disqualified  
No, I'm not perfect  
He sees me through every time

I found true love  
I found, found my true love  
I found true love  
In the arms of my one and only  
I'm calling off the search and rescue  
'Cause everything I need is in you  
I found true love  
I found, found my true love

Even in my darkest night you stay the same  
I never have to worry  
I finally found one that will never ever keep me guessing

I'm not broken  
I'm not disqualified  
No, I'm not perfect  
He sees me through every time

I found true love  
I found, found my true love  
I found true love  
In the arms of my one and only  
I'm calling off the search and rescue  
'Cause everything I need is in you  
I found true love  
I found, found my true love

I'm never ever ever going back  
'Cause no one's ever loved me like that  
I'm never ever ever going back  
No matter what you won't let me go  
Though I'm flawed you still hold me close  
I'm never ever ever going back  
'Cause no one's ever loved me like that  
I'm never ever ever going back  
No matter what you won't let me go  
Though I'm flawed you still hold me close
